

**Answer to Question # 1:**

As Mayor of Ottawa I try to the best of my ability to invite the Chinese Canadian Collective Community for a broad open discussion to seek their consultation about any City's action plans they are interested in their area. I will also make sure the Chinese Canadian Collective Community are happy and fully satisfied about all the City's service taking place in that community. I will also support to create more English or French language training

program especially for the seniors where they can communicate when they need assistance.

**Answer to Question # 2 Part A:**

The Mayor office is belong to the people, as Mayor I will return this ownership back to the residents of Ottawa. I will be more than happy to open City's Hall door for more communications and broad consultations with the communities about transportation problem in the City different communities needs different support, because in the end of the day the residents of Ottawa must be fully satisfied about the City's services are provided. I specially make sure that I will answer to the Chinese Canadian Collective community about the OC transport and other issue based on honesty and professionalism.

**Answer to Question Part B:**

The light Train Transit is very important project for the residents of Ottawa and very long project, but there are many issues such technical problems and the implementation of the project is a big one. Most importantly, the budget is a big issue our City is crumbling and at the same time different communities are seeking assistance for different projects to be completed in the City. I will put strong efforts to lobby the Light Train Transit in a professional way, I have the ability to present the residents of Ottawa well to convince Federal and provincial governments to assist me and find new method to complete the remaining project cohesively suited to the residents of Ottawa.

**Answer to Question C part:**

I believe in partnership, consultation with different communities about the City's action plan in their areas is a successful idea, because if the City of Ottawa has the most advanced and concreted plan, but if the residents of that area don't like it or have issues with the plan, then the outcome of project considers as a failure project. I will make sure that no income family and low income family get the best and fair price that suited for them to use OC transport in the City.

**Answer to Question # 3 :**

I will consult with the Chinese Canadian Collective Community and also with the City's Technical Assistance Team, I make sure to come up with a final solution to support public awareness about gambling and also provide

special support the Chinese Canadian Collective Community to convince their senior and prevent them from gambling. This can be done through a public awareness program strongly supported by the City of Ottawa.

**Answer to Question # 4:**

As Mayor I believe in multiculturalism, partnership and consultation, I also make sure to give opportunity to everybody in the City especially to the Chinese Canadian Collective Community and encourage them to be involved in recognized in the City of Ottawa with senior positions.

**Answer to Question # 5:**

Affordable housing is very important issue, as I mentioned in my previous answer statement I will consult with the communities first, and also review the old plan of the City about the affordable housing. Also with the consultation of the communities including the Chinese Canadian Collective Community. I make sure to come up with a solid concrete affordable housing plan that is suited for the residents of Ottawa and also meet the standard.
